1850

CENSUS

MONROE COUNTY VA

Monroe County was formed in 1799 from Greenbrier County. Named for President James Monroe.

The first Census was taken in 1800 but only listed the head of the household.

Although I plan to print Census records in one book from 1800 to 1840, I felt the 1850 Census would be most important. There were two Districts in Monroe County in 1850 the 39th District and 39½ District.

There were over 800 families in District 39½ and over 700 in District 39.

Another book on the 1860 Census of Monroe County will follow shortly.

In this 1850 Census if not listed otherwise all the residents were born in the state of Virginia.

Some of the names may not be spelled as they are today but we copied the Census records as accurately as possible and did not attempt to change the spellings.
